this is the most current and comprehensive book devoted to item writing it addresses the related topics of multiple choice test item development and validation of responses to these test items two critical steps in the development of any cognitive test in so doing the volume provides a conceptual basis for item writing reviews the issue of constructed versus selected response testing presents a variety of formats provides guidance in developing items as well as a basis for reviewing evaluating and improving items and speculates about

the future of item development and validation this book helps readers better understand the concepts principles and procedures available to build better test items that will lead to more reliable tests of ability and achievement

multiple choice questions for economics is based upon the syllabus requirements of the international baccalaureate diploma for economics for first examinations in may 2013 at both standard and higher level is structured in the study order of our textbook economics from a global perspective third edition which exactly follows the current ib diploma syllabus is sequenced by section chapter and topic as in our textbook has higher level only questions clearly marked has over 450 questions with many new questions covering the mathematical content of the current syllabus has answers that can be removed if using the book for course tests is ideal for use with economics from a global perspective is at a suitable level for use with gce a level courses professional courses and university introductory courses

the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a

rich and insightful work that provides real hope for the future of our children and their moral education
